

ESSO-EYSAC Hands on Course on Laparoscopy in the Management of Peritoneal Carcinomatosis

29 -30 June 2020
Alicante, Spain

IN PARTNERSHIP WITH

Hospital
quirónsalud
Torrevieja

Chairs

Pere Bretcha, Hospital Quirónsalud, Torrevieja, SP

Delia Cortés Guiral, Hospital Nuestra Señora de América. Hospital Príncipe de Asturias, Madrid, SP

Aim of the course

This two-day event is designed to cover the most recent advances in peritoneal surface malignancies treatment. Well-known experts in the field will teach about theory and techniques of laparoscopic peritonectomy, laparoscopic HIPEC, PIPAC, immunofluorescence, robotic, augmented reality and artificial intelligence application in the treatment of peritoneal surface malignancies.

The course will be a complete review of the added value of laparoscopy in the management of peritoneal disease (staging, treatment, palliation and research) and will give participants the opportunity to perform laparoscopic procedures on cadavers.

Educational methods

- Plenary lectures
- Case-based discussion sessions
- Hand-on cadaveric sessions

Main topics

- Laparoscopic surgical and HIPEC approach of peritoneal disease: diagnostic, staging, treatment and palliation
- Laparoscopic peritonectomy, laparoscopic HIPEC
- New techniques: immunofluorescence, PIPAC, ePIPAC, augmented reality.

Target audience

Surgeons specialized on peritoneal surface malignancies willing to learn about surgical laparoscopy and the most innovative technology available for the treatment of peritoneal diseases.

Registration

Registration fee is 800 € for ESSO members and 1000 € for non-members. It includes participation in the course, catering and a social dinner.

To register in this course visit our site at www.essoweb.org.
