

INTERNATIONAL WORKSHOP ON THE MANAGEMENT OF PERITONEAL CARCINOMATOSIS IN ADVANCED OVARIAN CANCER. THE QUESTION OF HIPEC

February 15th, 2024

MD Anderson Cancer Center Foundation Spain Auditorium

Arturo Soria 270. Madrid (Spain)

PROGRAM

After an overview of the overall management of this disease, and the imaging tools for patient evaluation, the Program will consist of a video-based demonstration of the steps, tips and tricks of cytoreductive surgery and oral presentations on the state-of-the art adjuvant treatment, both systemic and locoregional, with ample discussion time and audience interaction.
